—	Customer Health & Retention	Not enough data
—	Strategic Action Roadmap	Not enough data
—	Appendix (internal copies only)	Omitted

HOW THIS REPORT IS BUILT

Sections appear only when the underlying data clears Ryvl’s coverage threshold, so length varies by seller and by cycle — from 3 slides to 20.

Executive Snapshot & Key Signals

Aura Mobile Accessories · Last 30 days vs. prior 30 days

RYVL INSIGHT

“Revenue grew 18.4% this period, driven by higher order volume. Your pricing sits slightly above the tracked market median. Six SKUs are approaching your low-stock threshold and should be reviewed.”

ORDER VOLUME

+12.0%

AVG. ORDER VALUE

Rs 6,875

MARKET PERCENTILE

82nd

What changed this cycle

WATCH

Zenith Gadgets on Daraz repriced **32%** of tracked SKUs this period.

OPENING

Volt Traders is out of stock on **45%** of their tracked assortment.

POSITION

Your price sits at the **82nd percentile** — above most of the category.

02

SECTION 02 OF 08

Market Position & Benchmark Percentiles

Where your pricing sits against 42 tracked sellers in Mobiles & Electronics this period.

- » Your percentile position across the tracked set
- » P25 / P75 benchmark range and where you sit in it

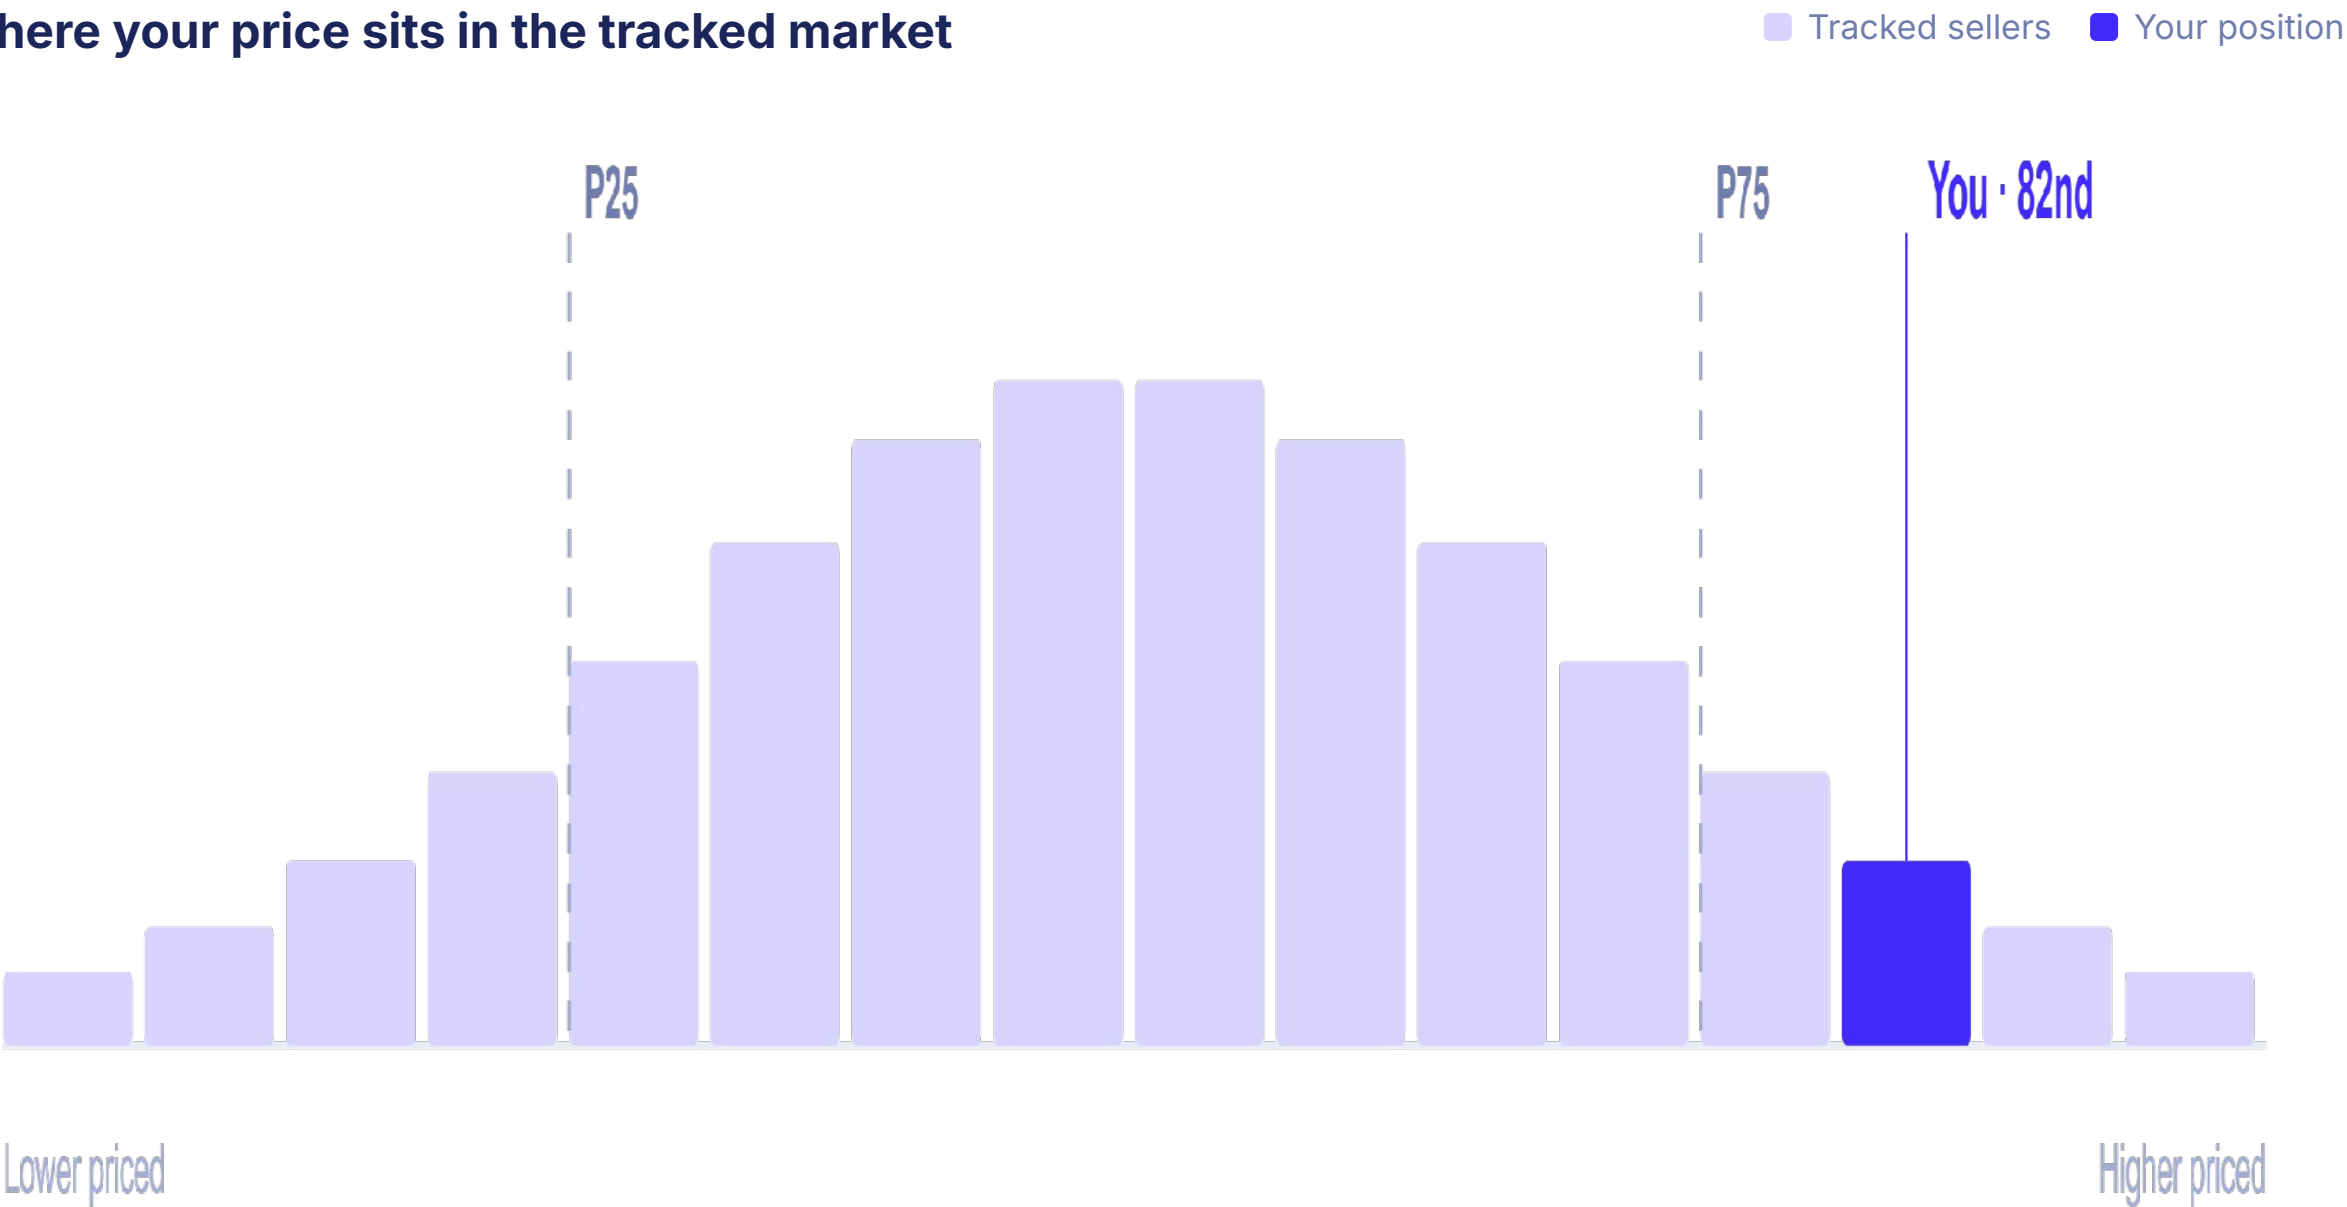

Ryvi market scan · Daraz · last 30 days

Market Position & Benchmark Percentiles

Price distribution across 42 tracked sellers · Mobiles & Electronics · Daraz

Where your price sits in the tracked market

PRICE INDEX VS. MARKET

104 100 = market median

BENCHMARK RANGE

25	75	82
P25	P75	You

READ

You price above three quarters of tracked sellers. That holds margin, but leaves you exposed if Zenith Gadgets keeps repricing downward.

SECTION 03

Pricing Intelligence

Your price against the tracked market median — and the band Ryvl recommends holding this cycle.

YOUR PRICE

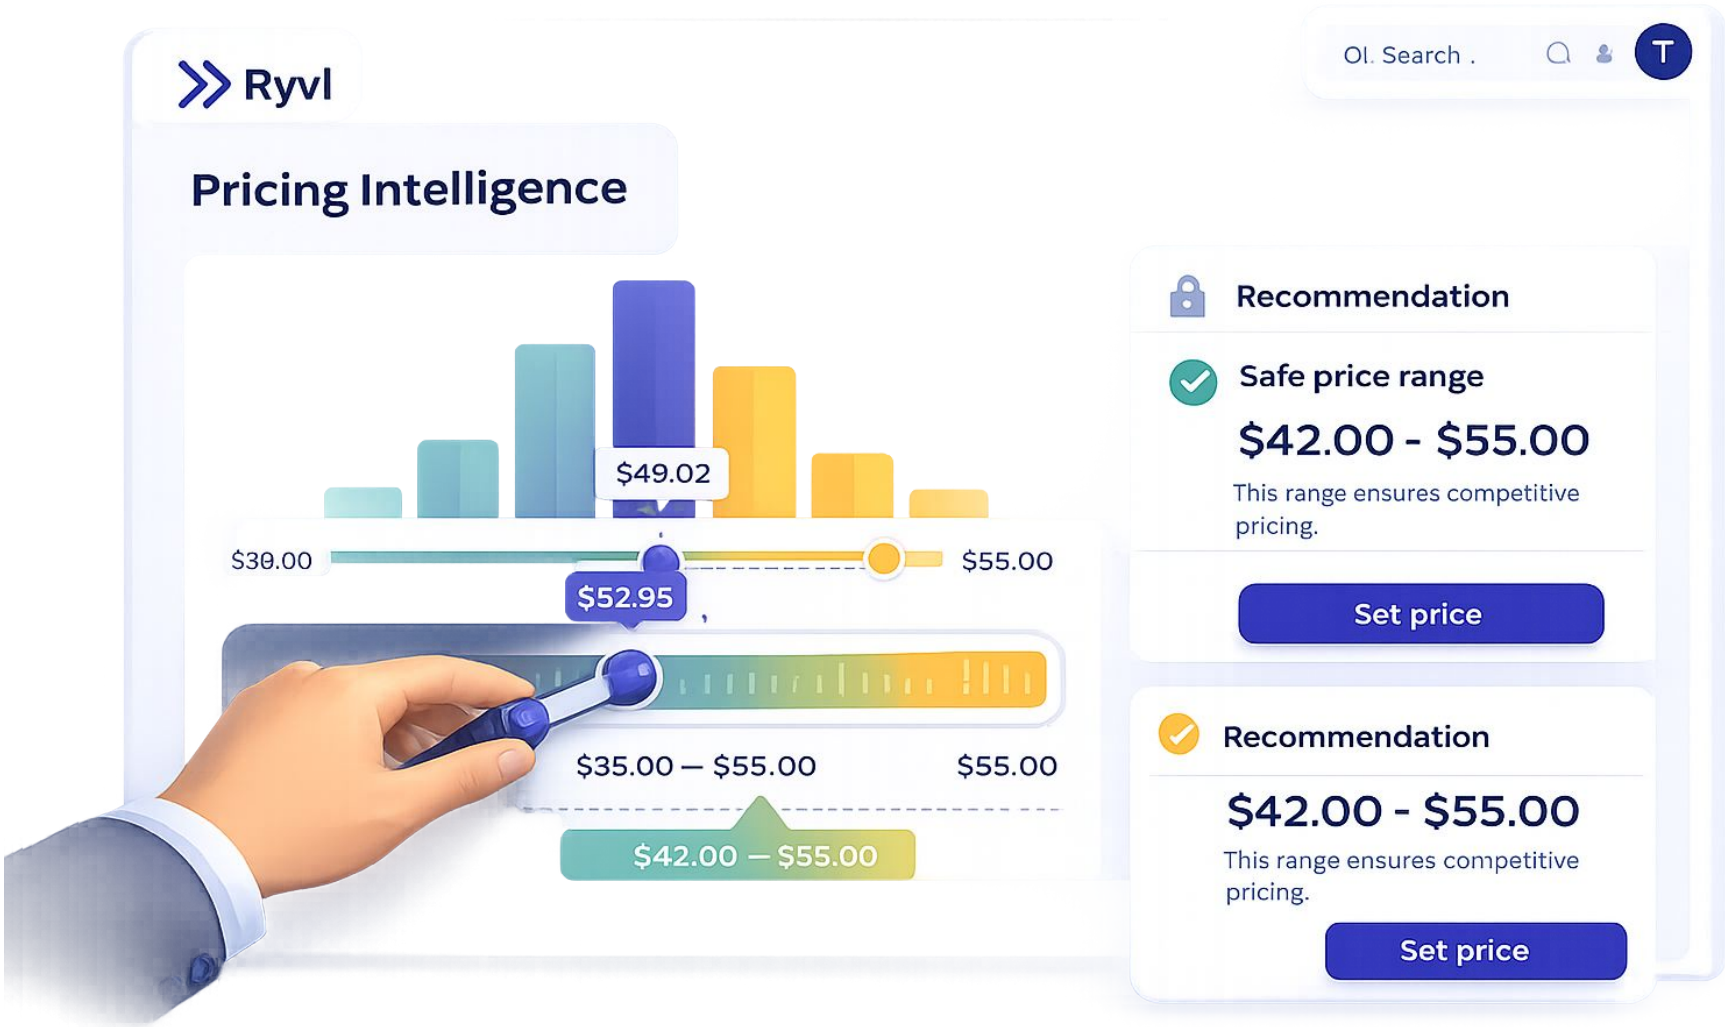

Rs 4,200

MARKET MEDIAN

Rs 3,950

GAP

+6.3%

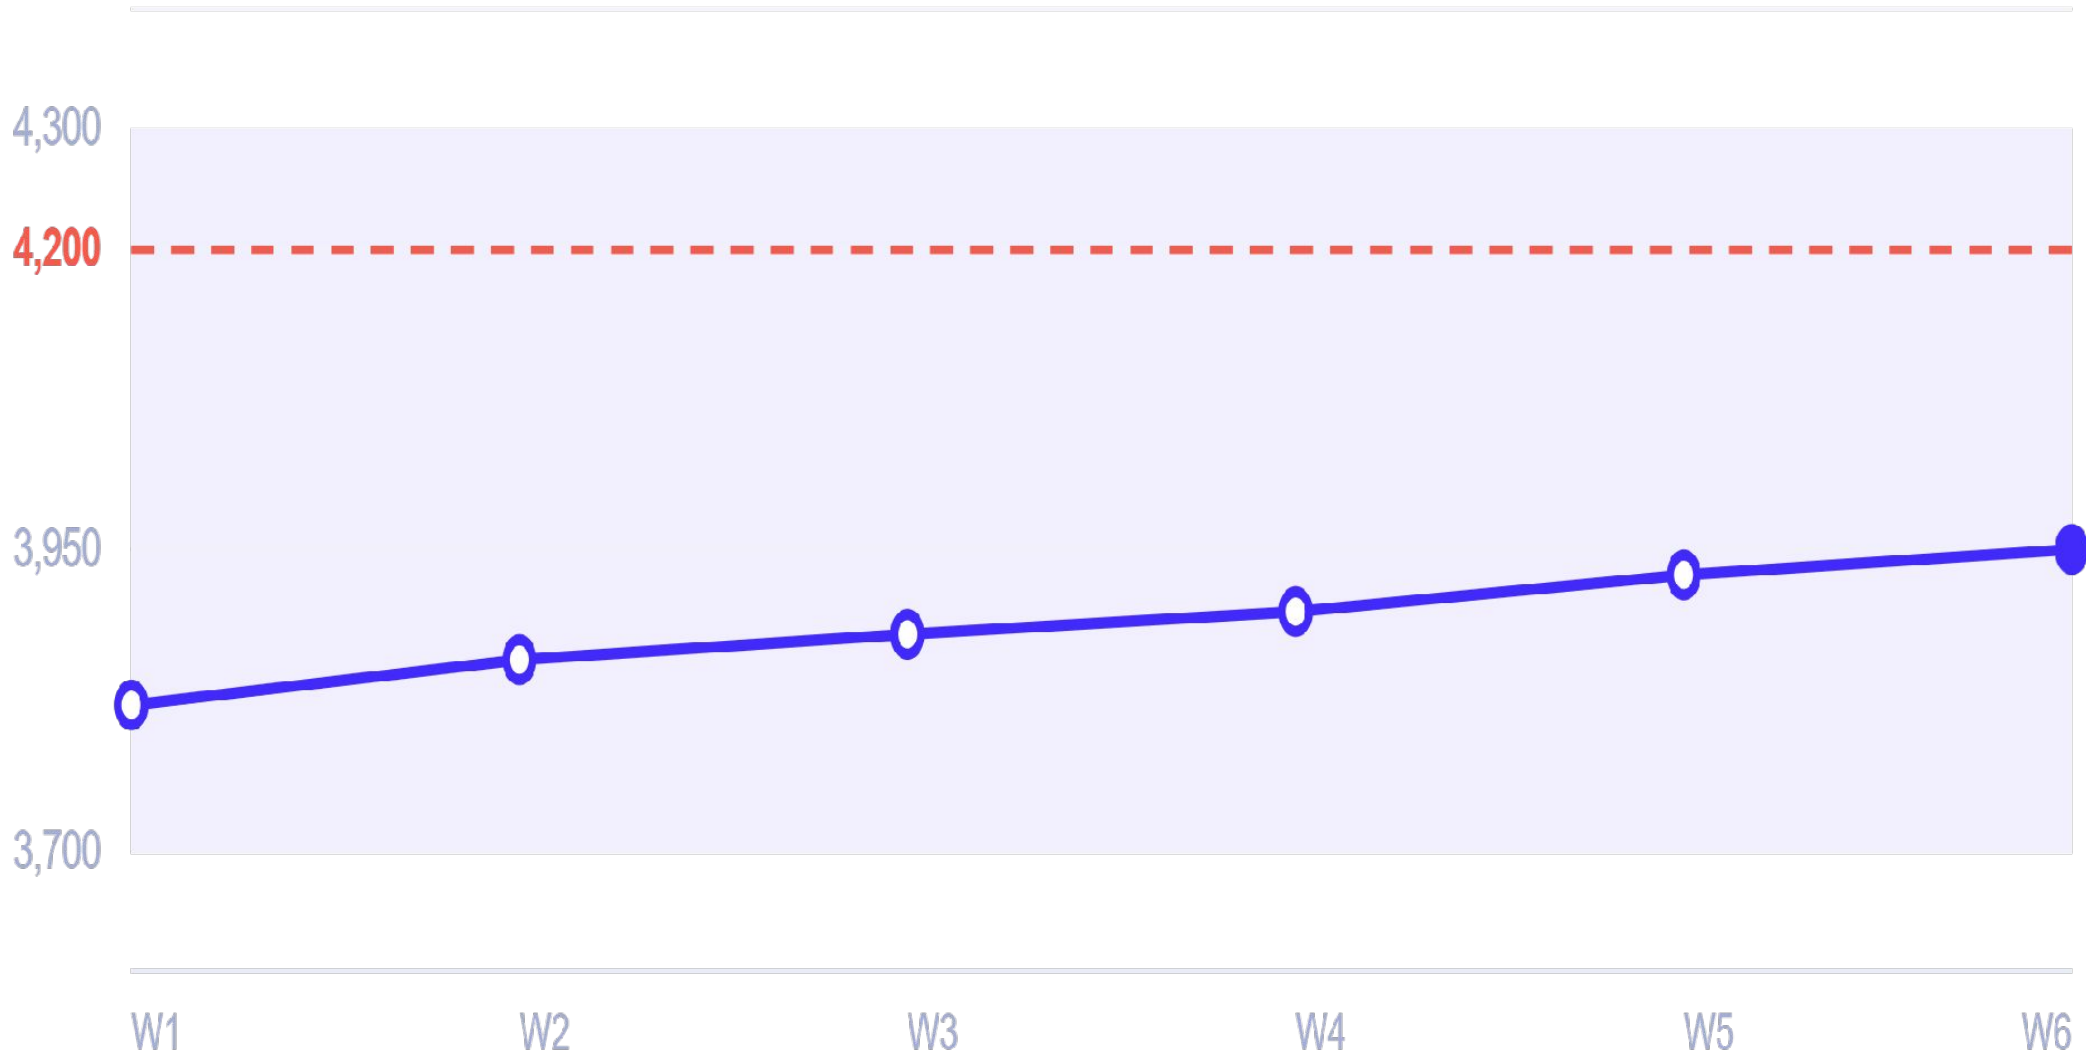

Pricing Intelligence

Aura MagSafe Charger 20W (AUR-MS20) · tracked against 42 sellers

Market median price — last 90 days

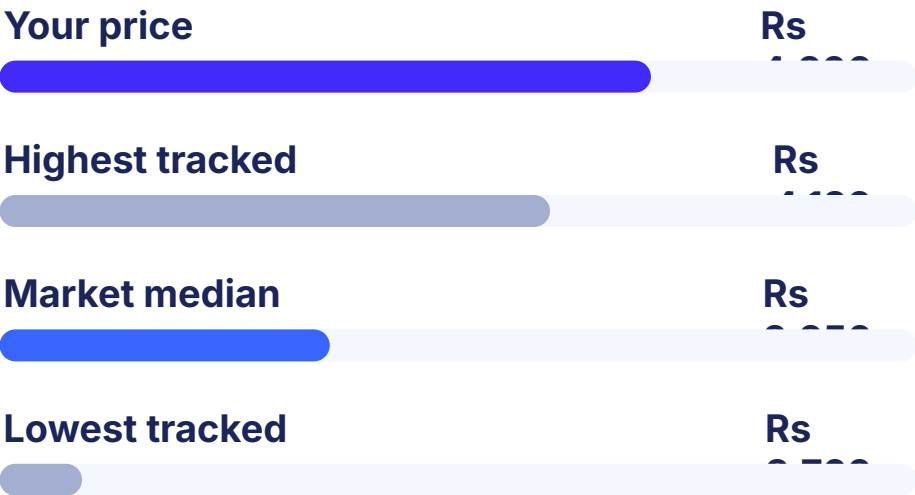

Market median Your price Recommended band

Median has climbed Rs 130 (+3.4%) over the tracked window, narrowing your premium from 9.9% to 6.3%.

Price ladder

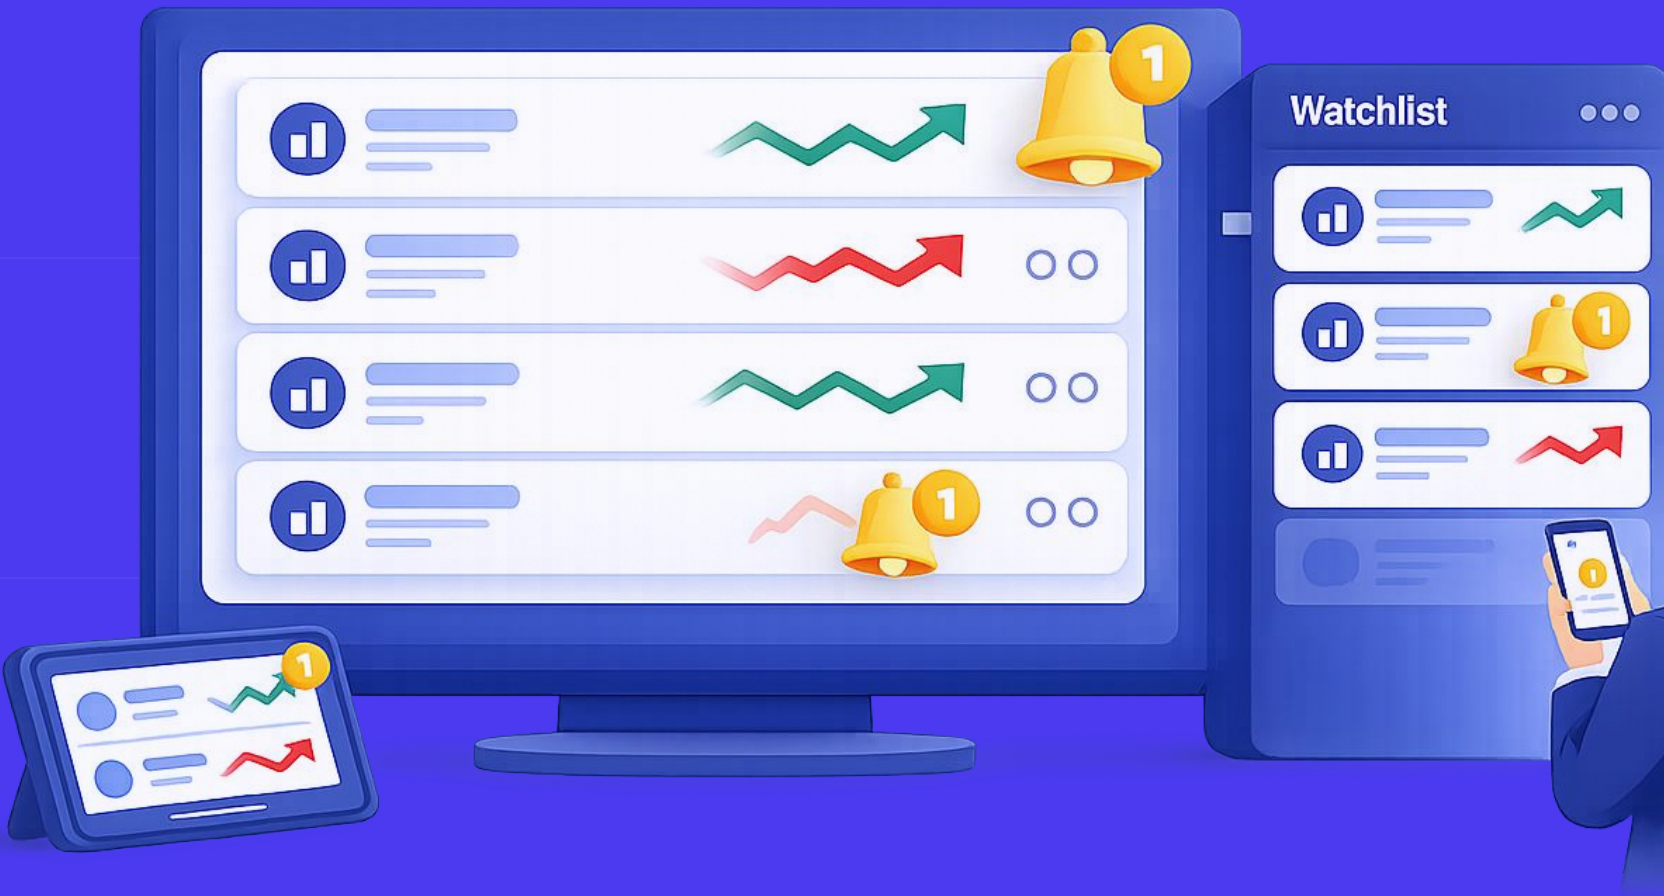

Scale starts at Rs 3,700

RECOMMENDED BAND

Rs 3,700 – 4,300

You are inside the band, near its upper edge.

SECTION 04

Marketplace & Competitor Tracking

Who moved on price, who ran out of stock, and where that leaves you.

Supply void opportunities

Volt Traders Daraz

Out of stock on 45% of their assortment — 18 SKUs overlap with yours.

Demand you can absorb

Circuit Bazaar Daraz

Out of stock on 21% of their assortment — 6 SKUs overlap with yours.

Demand you can absorb

NET POSITION

Two of your six at-risk SKUs sit in categories where competitors are already out of stock. Reordering those first protects the opening.

Prioritised Recommendations

Four actions, ordered by what this cycle’s data says will cost you most if ignored

01

HIGH

Reorder the 3 SKUs nearing your low-stock threshold.

Earbuds X2 has 6 days of cover at the current order rate, and it is 12.9% of your inventory value.

Act this week

02

HIGH

Review pricing against Zenith Gadgets.

They repriced 32% of tracked SKUs this cycle while your premium sits at +6.3% over the median.

Act this week

03

MEDIUM

Stock up where Volt Traders has gone out of stock.

18 of their out-of-stock SKUs overlap your catalogue, mostly in Chargers.

Next 30 days

04

MEDIUM

Re-check your band against the category’s typical range.

You sit at the 82nd percentile — inside the recommended Rs 3,700–4,300 band, but near its ceiling.

Next 30 days

SECTION 08

Methodology, Privacy & Data Sources

DATA SOURCES

Your store data

Orders, products and customers from your own account.

Ryvl market scan

Publicly listed prices and stock status scraped from tracked retailer marketplaces.

LIMITATIONS

Repricing rate is a floor, not exhaustive — price moves that reverted between scheduled scrapes are not observed.

Product and portfolio contribution is based on inventory value, not recorded sales revenue.
